

Roller Blinds

Express your style with an individual touch

Luxaflex®

Elevate the everyday with the Luxaflex® difference

Every room needs something different. From practical concerns such as window shapes and light levels, to wildly varying individual design tastes and passions. So we have over 300 fabrics and four transparency types in our new roller blind collection to ensure we can deliver a look for every design challenge. No matter how complex.

It is this commitment to offer a nuanced, style-led approach that makes Luxaflex® Roller Blinds stand out.

DESIGN-LED, SIMPLE SOLUTIONS

The essential simplicity of a roller blinds structure creates the perfect blank canvas to make a stunning statement. From bold prints to shimmering sheers our collection offers new, exciting ways to manage light and elevate your window blinds.

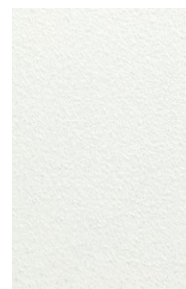

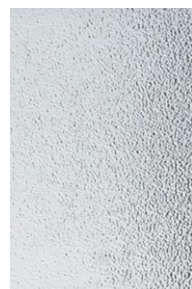

FINISHING TOUCHES

Trims create an opportunity for self-expression and daring design. For something more decorative and personal, end caps and the standard bottom bar are available in 8 stylish finishes, catching the light and the eye. Our sleek bottom bar can be used to add contrast and sophistication to every fabric in the range. For an even more elegant finish to your roller blind, choose one of our designer wood or metallic trims, available in a decadent choice of glossy, brushed or matt look finishes.

POWERSVIEW® AUTOMATION

Our award winning smart home system operates with Apple Home Kit, Amazon Alexa, Google Home, Nest and many more, or as a standalone app or controller. You can use it to help wake you up, improve security or change the mood – automatically. With an intuitive digital interface and controllable from your smart device, your Luxaflex® Roller Blinds can now be part of your intelligent home.

LITERISE®

The revolutionary Luxaflex® LiteRise® system makes raising and lowering your roller blind easier than ever. Simply push up to raise and pull down to lower - your roller blind stays right where you put it.

DESIGNED WITH SAFETY IN MIND

We consider child safety a top priority. Making child safe products for homes is an integral part of our design philosophy. From endless chain to fully motorised systems, Luxaflex® offers many innovative lifting systems designed with safety, comfort and beauty in mind.

PLANNING FOR THE LONG TERM

Sustainable living starts with great design.

Luxaflex® Roller Blinds are designed to be intrinsically sustainable through the management of light and heat. We constantly seek to improve our processes, develop innovative materials and eliminate waste. That is why our roller blind range includes cutting edge sustainable fabrics.

Our latest innovation GreenScreen Sea-Tex is the world's first roller blind fabric made with recycled ocean plastic waste. Our GreenGuard® certified fabrics meet rigorous standards for low chemical emissions and contribute to healthier indoor air quality. Most of our fabrics have OEKO-TEX® 100 certification approval, a stringent international system monitoring the use of chemicals.

CRADLE TO CRADLE CERTIFIED™

Using sound materials is one of the cornerstones of the Luxaflex® sustainability approach. Buying Cradle to Cradle Certified™ products means you are doing “more good” as these products are made responsibly without exploiting nature and return the product to a new life at the end of its purpose. The Luxaflex® Roller Blind collection features Cradle to Cradle Certified™ fabrics and hardware systems so you can make the responsible choice for your home and family.

Learn more about our sustainability approach at luxaflex.com.

At Luxaflex® our window treatments start with great design. Light control, energy efficiency, and the convenience of motorisation are just some of the innovations that enhance the beauty of every room, every day – made to measure with a five-year guarantee.
